

XTH series Washer Extractor and Dryer All-in-one Machine

Model	XTH-15	XTH-20	XTH-25
Rated capacity(kg)	15	20	25
Tumble volume(Lt)	152	200	250
Rated Voltage(v)	220/380		
Noise	50-70		
Washing Speed(rpm)	45	45	45
Distribution Speed(rpm)	400	400	400
High Dehydration Speed(rpm)	900	900	900
Motor power(km)	2.2	2.2	3
Heater power(km)	8	8	8
Water Consumption(L)	220	260	320
Air Consumption(KG)	≤18	≤20	≤25
Drying Air Consumption(KG)	20-30	30-35	36-45
Steam Pressure(mpa)	0.4-0.6	0.4-0.6	0.4-0.6
Cold Water Inlet Size(mm)	20	20	20
Hot Water Inlet Size(mm)	20	20	20
Steam Inlet Size(mm)	20	20	20
Dimensions(mm)	1220x1000x1720	1220x1000x1720	1220x1100x1720
Total Weight(kg)	550	600	750

- 1. Full-suspended automatic industrial washing , dewatering and drying all-in-one machines,in which inner and outer cylinder interface adopt a face to face mode can effectively prevent accidental damage to cloth and leather;**
- 2. It adopts stainless steel panels and inner pot for longer service life, and also much easier to be cleaned;**
- 3. Liquid cylinder is with a special anti-corrosion treatment, very durable.**
- 4. The whole washing tank system is installed suspended on the spring and damping devices, shock absorption is up to 95%, and without foundation required when using.**
- 5. it is with automatic detergent separation container, neither washing powder accumulates nor the washing additives can not fully dissolves and then rot the cloth and leather.**

6. It is fully controlled by computer, with frequency to adjust the speed, with man-machine conversation to adjust washing program, with clear LCD screen display with failure and functional self-checking system to make it easier to maintain.

7. Electrical control components all adopt high-quality components. motors adopts high-quality special motor,transducer adopts LS brand which is from South Korea.
