

Microwave therapy
HYJ-I

Product feature

Input power: 385VA

Working power: 0-50W

Size of radiator: $\Phi 83 \times 95 \text{mm}$

Length of arm: 340mm+380mm

Treatment time: 0-30min

Output mode: continuous and pulse mode

Microcomputer control to ensure stability

Microwave Therapy Device HYJ-II, HYJ-IV

Product Feature

- Power: 800VA
- Output power: 0-50W
- Radiator size: $\Phi 83 \times 95 \text{mm}$
- Arm support size: 340mm+380mm
- Treatment time: 0-30min
- Output method: continuous and pulse
- Single and 2 independent channels of radiation output available
- Micro-computer controlled, the output power is more stable
- The service life of the electromagnetic oscillation circuit is more than 50000 hour
- Frequency: 2450MHZ
- Size: 40*42*82cm

HYJ-II

HYJ-IV
